

TEST & REPAIR SERVICES

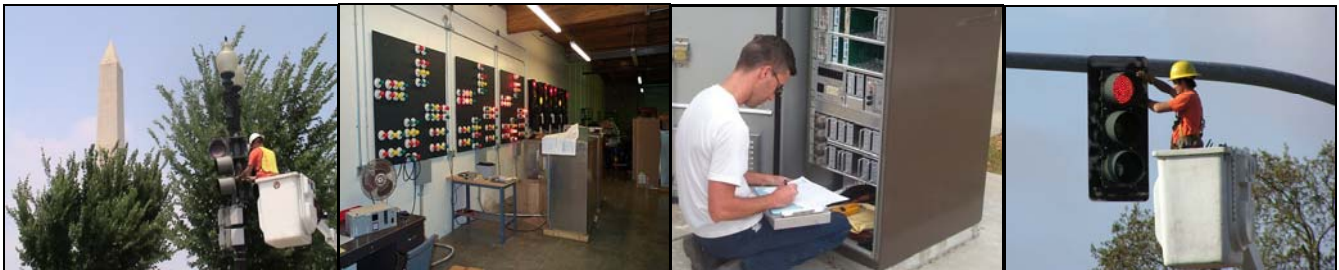

Republic ITS is a licensed electrical contracting and transportation engineering firm founded in 1991. The company specializes in the maintenance, testing, repair and replacement of traffic signals and streetlights; professional transportation engineering services; energy efficient retrofit of traffic signals; and maintenance of exterior commercial lighting infrastructure.

The Republic ITS Traffic Signal Test and Repair Services Laboratories provide comprehensive traffic signal controller/cabinet system testing and support services; controller repair; and conflict monitor/CMU testing and certification. Our facilities service all types of traffic signal control equipment including 170s, 2070s, NEMA TS-1 and TS-2 equipment. Republic ITS laboratory personnel include IMSA certified traffic signal technicians and electricians with decades of cumulative traffic signal test and repair experience.
